1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Anthony P. Venturino on December 8, 2004.

The application has been amended as follows:

## IN THE CLAIMS

In claim 1, line 6, after "microns" inserted was --, and wherein the graphite of the substrate of the mold has isotropic grains with grain size between 3 and 10 microns, flexural strength between about 7,000 and 20,000 psi, compressive strength between about 12,000 and 35,000 psi, and porosity below about 13%--.

In claim 25, line 3, after "17,000" the word "psi" was deleted; and after "35,000" inserted was -psi--.

Claims 24 and 28-37 were canceled. However, attorney reserved the right to file divisional application.

## Reasons for Allowance

The following is an examiner's statement of reasons for allowance. The prior art record fails to teach or suggest the combination of steps in a method of making cast shapes of a metallic

Application/Control Number: 10/624,497

Art Unit: 1725

alloy, comprising: pouring a melt of alloy into a composite mold comprising a substrate of isotropic graphite having a mold cavity, wherein the surface of the mold cavity is coated with a coating of refractory metal such as W or Re or a refractory metal carbide such as TaC or HfC having a thickness from 2 to 500 microns, and an isotropic graphite mold having a cavity; and means for rotating the mold, wherein the mold surface is coated with either hafnium carbide or tungsten or rhenium, and wherein the graphite of the substrate of the mold has isotropic grains with grain size between 3 and 10 microns, flexural strength between about 7,000 and 20,000 psi, compressive strength between about 12,000 and 35,000 psi, and porosity below about 13%. Therefore, the claimed feature is allowable over the art of record.

## Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ing-Hour Lin whose telephone number is (571) 272-1180. The examiner can normally be reached on M-F (8:00-5:30) Second Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tom Dunn can be reached on (571) 272-1171. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
